The Museum of Human Disease invites students from across New South Wales to participate in our inaugural Scientific Poster Competition for National Science Week.

This competition is a chance to combine research, creativity, and communication skills by designing a professional Scientific Poster.

Three finalists will be selected from each category to present their poster at a symposium held at the Museum of Human Disease on **12th August** during National Science Week.

Posters need to be completed based on the following topics:

Stage 4: Yr 7-8	Stage 5: Yr 9-10	Stage 6: Yr 11-12
Australian Scientists who changed our Understanding of Disease	Unlocking the Code: Understanding DNA and/or Gene Technology	Infectious or Non-Infectious Disease of your choosing

Please register your school using the link for [Poster Registration](#).

You will receive an information pack, guidelines for entry, and all terms and conditions after June 2nd when the competition opens.

Maximum 3 entries per Stage per School.
Email entries to diseasemuseum@unsw.edu.au
Entries close: 4 July 2025 at 4pm.

Finalists will be notified by 22nd July 2025
Symposium including student presentations: 12 August 2025
