

NATIONAL SCIENCE WEEK CELEBRATIONS @ ESP

QUANTUM CONNECTIONS: Exploring Our Entangled Futures Tues, 5 Aug | 10AM | Seminar Room

Join renowned quantum physicist and popular children's author Chris Ferrie who will be sharing his remarkable insights into all things Quantum. You'll also hear from UniSQ about their exciting Quantum 2032 project that aims to precisely measure forces to prevent injury in young athletes in preparation for the Olympics. Brisbane South State Secondary College students will join us (and be keen to network after) as we explore the fascinating intersection of quantum physics, innovation, and real-world applications.

SCIENCE FILM SCREENING Wed, 6 Aug | Seminar Room

10:00 am - 10:15 am | 15m | Back from the Brink

This inspiring documentary showcases efforts to safeguard the critically endangered Nangur Spiny Skink and its habitat, featuring DETSI's very own Dan Ferguson.

12:00 pm - 1:30 pm | 1h 24m | Kiss the Ground

Narrated by Woody Harrelson, this powerful story explores soil regeneration as a practical solution to the climate crisis.

2:30 pm - 2:50 pm | 18m | Plastic Fantastic

Building on support from Advance Queensland's Deadly Deals this short film showcases the inspiring story of Salty Monkeys who developed flippers made from plastic debris collected from the Torres Strait.

MAKE IT SNAPPY! Thus, 14 Aug | 12PM-1PM | Seminar Room

Hosted by avid science communicator, astrophysicist, and performer Gregory Rowbotham, this dynamic showcase celebrates creativity and effective science communication, challenging participants from DETSI, CSIRO, and DPI to deliver a compelling three-minute pitch for agency pride.

SCIENCE TRIVIA NIGHT Fri, 15 Aug | 4PM - 5:30PM Ground Floor Foyer (near atrium under the stairs)

As part of CSIRO's Friday social events, this casual evening of fun, learning, and friendly competition invites teams to take on science-themed trivia while enjoying refreshments and laughter!
