

faces of DISCOVERY

Faces of Discovery is our National Science Week exhibition that shines a light on the brilliant minds driving cancer research at Peter Mac.

Through portraits and personal reflections, this showcase introduces you to the people behind the science - researchers who are not only advancing cutting-edge discoveries, but doing so with heart, purpose and an unwavering commitment to improving the lives of people with cancer.

Come and meet our faces of discovery in our **Welcome Hall** and on **Level 7**.
